

The future of the Town of Brownsburg needs your protection!

Town officials are evaluating an economic development proposal called “Project Aisle” that will allow a HIGH INTENSITY INDUSTRIAL FACILITY to be zoned directly adjacent to agricultural and residential areas at Ronald Reagan Parkway and E County Road 400 N. This facility is in complete opposition for positive development in our town:

- It will operate 24 hours a day/7 days a week!
- It hosts parking/staging areas for 200 semi-trucks that will be on a continuous rotation on our county roads.
- The primary structure will be up to 160’ in height! That is 50’ higher than our current water towers and 10’ lower than Bankers Life Fieldhouse.
- This automated facility will only hire up to 150 employees – averaging 50 per shift – or 1 employee parking space for every 4 semi-truck parking spaces
- Property values will decrease due to noise, increased traffic and obstructed views.

This does not belong right next to our neighborhoods, churches and schools!

How can you help? Please join us to attend the Advisory Plan Commission’s Special Meeting to share your thoughts and save the reputation of our town.

Town of Brownsburg Advisory Plan Commission’s Special Meeting

Date: Monday, 8/17/2020 at 6:00 PM - continuance expected

Continuance Date: Monday, 8/31/2020 at 6:00 PM

Location: Town Hall Council Room – 61 N Green Street - Face masks required

The purpose of this meeting is to change the zoning of this property from M3 Multi-Family Residential to I2 High Intensity Industrial so that “Project Aisle” can proceed. WE DO NOT WANT THIS CHANGE!!! Even if this project is cancelled, the I2 zoning would allow for industries such as bio-diesel production, liquid fertilizer distribution, stone cutting, chemical manufacturing, crematory services, meat processing, and more. None of these industries are compatible with the future that we want for our Brownsburg residential areas. Please join us at this public meeting to make sure that our voices are on the record for this important zoning decision.
